

2025 Environment Days & Key Events

We believe that responding to the climate crisis is an essential part of our responsibility to safeguard God's creation and achieve a just world. Climate change already hits hardest the poorest countries and poorest people of the world but it's now hitting us harder too.

Meantime, the widespread destruction of the natural world is a crisis for creation and our single planet island home. Our Environment Programme exists to enable the whole Church to address these threats — in faith, practice and mission. It includes tackling our own carbon emissions (aiming for Net Zero Carbon by 2030) and our wider environmental work — **we all have our part to play.**
